

Seeking Laboratory Heads

RIKEN Center for Developmental Biology (CDB)

【Laboratory】

Center for Developmental Biology, new laboratory

【Research Field】

CDB plans to broaden our study on developmental biology to life-cycle science. Along with this line, we seek up to two outstanding scientists engaged in the investigation of 1) Adult stem cells (cell biology, physiology, pathology and/or its application to medicine), or 2) Fundamental mechanisms of development. While we have excellent animal facility for the mouse and fish, we are also interested in candidates developing new model organisms. The evaluation criteria of highest priority in this recruitment are the novelty and creativity of the research plan; those seeking to undertake new research challenges are welcomed, irrespective of their scientific background or stage of career development. We will provide an internationally competitive package including lab space, start-up and annual budget.

The CDB is centered within a growing Kobe Biomedical Innovation Cluster and is determined to help establishing productive interaction between a successful applicant(s) and nearby hospitals or biomedical companies. Applicants must have a doctor degree. Laboratories are internally funded and have access to facilities for animal care, as well as support for imaging, genomics and proteomics.

【Job title】

Laboratory Head

【Work location】

RIKEN Center for Developmental Biology
2-2-3 Minatojima-minamimachi, Chuo-ku, Kobe, Hyogo, Japan 650-0047

【Employment conditions】

Full-time position which is annually renewable up to 7 years. Based on the results of performance review, the term can be extended for additional 3 years (maximum). RIKEN may adjust the above period of renewability based on a) the employee's abilities, work load at the time of contract completion, performance and work attitude and b) the continuation of the employee's center, laboratory or project and RIKEN's management situation and budget at the time.

The employee's period of fixed-term employment cannot exceed 10 years from the initial date of hire (or 10 years from April 1, 2013 for fixed-term employees already at RIKEN prior to this date).

Salary will be commensurate with qualifications and experience. Commuting and housing allowances will be provided. Social insurance will be applied. Membership in the RIKEN Mutual Benefit Society (RIKEN Kyosaikai) is mandatory. Days off include weekends, public holidays, New Year's holidays (Dec. 29 - Jan 3), and RIKEN Foundation Day.

These and other provisions are in accordance with RIKEN regulations.

RIKEN is promoting a Gender Equity Program by taking various measures to create a workplace where both men and women are able to give full rein to their talents and abilities.

According to the RIKEN policy, women applicants will be given preference when applicants are judged to be equally qualified on the basis of fair and impartial criteria.
